BIRUK SIMON

JUNIOR FULL-STACK DEVELOPER | SOFTWARE ENGINEERING STUDENT

Jimma, Ethiopia • [birukman493@gmail.com] • [+251 954497337]

Portfolio: biruksimon-portfolio.netlify.app | GitHub: github.com/birukman493-star

PROFESSIONAL SUMMARY

Motivated Full-Stack Developer and Software Engineering student at Jimma University with hands-on experience building responsive web applications and database-driven systems. Works with JavaScript, React, Node.js, Express, NestJS, MySQL, and Python-based APIs. Enjoys solving practical problems, learning new technologies, and turning ideas into useful software.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, React.js,Nextjs, Bootstrap
Backend	Node.js, Express.js, NestJS, Python, FastAPI
Databases	MySQL, PostgreSQL
Tools & Practices	Git, GitHub, REST APIs, responsive design, database management

SELECTED PROJECTS

Apple-Inspired E-commerce Platform

Technologies: React.js, JavaScript, Node.js, Express.js, MySQL, HTML, CSS

- Built a responsive e-commerce experience with product browsing, navigation, and search functionality.
- Developed an admin dashboard for managing products, orders, users, and website content.

GitHub: https://github.com/birukman493-star/Apple

Abdigudina Student Registration & Management System (SRSL)

Technologies: Node.js, Express.js, MySQL, JavaScript, Socket.IO, HTML, CSS

- Developed a web-based system for student registration and academic administration.
- Implemented role-based access for students, parents, teachers, and administrators, with grade, attendance, and record-management features.

GitHub: github.com/birukman493-star/SRSL

AI Web Security Analyzer

Technologies: Python, FastAPI, JavaScript, REST APIs

- Built a web security analysis application with API endpoints for URL, source-code, and SSL configuration scanning.
- Created an interactive interface to submit scans and review analysis results.
